FUTURE INTERNS

TASK 2

AI CONTENT MARKETING USING UGC ADS

Project Title

AI-Powered UGC Advertisement Campaign for Crumbz Cafe

Submitted By:

Rekam Tejaswini

Internship Program: Future Interns

Task: Prompt Engineering – Task 2

Business Selected: Crumbz Cafe

Location: Chandapura, Bengaluru, Karnataka

Year: 2026

Creating Engaging Brand Experiences Through AI-Powered Content and UGC Advertising

Crumbz Cafe – AI-Powered UGC Ad Content Pack

1. Brand Overview

Business Name: Crumbz Cafe

Business Type: Local Cafe

Location: Chandapura, Bengaluru

Campaign Type: AI-Powered User Generated Content (UGC) Advertising

Target Audience:

- College students
- Young professionals
- Friends looking for hangout places
- Cafe and food lovers

Campaign Objective:

To create authentic, engaging and conversion-focused UGC advertisements that encourage potential customers to discover and visit Crumbz Cafe.

Promotional Focus:

- Food and beverages
- Cafe atmosphere
- Friends and social gatherings
- Customer experience
- Cafe visits

2. AI Tools Used

- ChatGPT – Content generation and prompt engineering
- Google Docs – Content documentation
- GitHub – Project documentation and publishing

3. UGC Advertisement Hooks

Campaign: Crumbz Cafe – Complete Cafe Promotion

Target Platform: Instagram Reels, Facebook and YouTube Shorts

Hook 1 – Discovery Hook

"POV: You just found a new spot for your next cafe hangout!"

Hook 2 – Relatable Hook

"Still wondering where to spend quality time with your friends? Here's an idea!"

Hook 3 – Curiosity Hook

"Wait! Have you discovered Crumbz Cafe in Chandapura yet?"

Hook 4 – Experience Hook

"Sometimes, all you need is good food, refreshing drinks and a little break!"

Hook 5 – Friend Recommendation Hook

"Your next weekend plan? Let's make it a cafe day!"

Hook 6 – Food Lover Hook

"Calling all food lovers! Here's a cafe worth discovering."

Hook 7 – Lifestyle Hook

"Not every outing needs a big plan. Sometimes, a cafe visit is enough!"

Hook 8 – Local Discovery Hook

"Chandapura people, have you added Crumbz Cafe to your must-visit list?"

Hook 9 – Problem-Solution Hook

"Can't decide where to meet your friends? Why not plan a cafe outing?"

Hook 10 – Direct Promotion Hook

"Looking for your next cafe destination? Discover Crumbz Cafe!"

AI Strategy:

These hooks use curiosity, relatability, local discovery, lifestyle appeal and problem-solving techniques to capture audience attention and encourage viewers to watch the advertisement.

4. UGC Video Advertisement Scripts

Advertisement 1 – The Perfect Cafe Hangout

Duration: 20–25 seconds

Platform: Instagram Reels

Concept: Promoting Crumbz Cafe as a place to spend quality time with friends.

Scene 1 – Hook (0–4 seconds)

Visual: A person scrolling through their phone, looking for a place to hang out.

Dialogue: "Still confused about where to go with your friends this weekend?"

On-screen text: Need a new hangout spot?

Scene 2 – Problem (4–8 seconds)

Visual: Friends discussing where to meet.

Dialogue: "We always end up asking the same question – where should we go?"

Scene 3 – Solution (8–17 seconds)

Visual: Cafe atmosphere, food, beverages and friends enjoying their time.

Dialogue: "Why not make it a cafe day? Good food, refreshing drinks and lovely moments with your favourite people!"

Scene 4 – CTA (17–25 seconds)

Visual: Cafe name displayed on screen.

Dialogue: "Discover Crumbz Cafe in Chandapura and plan your next outing!"

On-screen text: Visit Crumbz Cafe!

Advertisement 2 – A Little Break, A Lot of Happiness

Duration: 20–25 seconds

Platform: Instagram Reels and YouTube Shorts

Concept: Promoting the cafe experience and relaxation.

Scene 1 – Hook (0–4 seconds)

Visual: A busy person closing their laptop.

Dialogue: "Feeling tired of your everyday routine? Maybe you need a little break!"

On-screen text: Take a break!

Scene 2 – Problem (4–8 seconds)

Visual: A person looking stressed and checking their phone.

Dialogue: "Sometimes, we get so busy that we forget to enjoy the little things."

Scene 3 – Solution (8–17 seconds)

Visual: Coffee, food, cafe ambience and relaxing moments.

Dialogue: "Take some time for yourself, enjoy your favourite treats and make room for happy moments at Crumbz Cafe."

Scene 4 – CTA (17–25 seconds)

Visual: Cafe name and location on screen.

Dialogue: "Your little cafe break is waiting. Visit Crumbz Cafe, Chandapura!"

On-screen text: Make time for happiness!

Advertisement 3 – Your Next Foodie Destination

Duration: 20–25 seconds

Platform: Facebook Reels and Instagram Reels

Concept: Promoting the complete cafe experience to food lovers.

Scene 1 – Hook (0–4 seconds)

Visual: Close-up shots of cafe food and beverages.

Dialogue: "Food lovers, stop scrolling! Looking for your next cafe destination?"

On-screen text: Calling all foodies!

Scene 2 – Problem (4–8 seconds)

Visual: A person searching online for a cafe.

Dialogue: "Finding a nice place to enjoy good food and spend time with friends can be difficult."

Scene 3 – Solution (8–17 seconds)

Visual: Cafe atmosphere, food, drinks and friends enjoying a gathering.

Dialogue: "Make your next outing special with a cafe visit. Bring your friends, enjoy the atmosphere and create memorable moments!"

Scene 4 – CTA (17–25 seconds)

Visual: Crumbz Cafe name and location.

Dialogue: "Discover Crumbz Cafe in Chandapura. Your next cafe outing starts here!"

On-screen text: Explore. Enjoy. Repeat!

Note: These are AI-generated UGC-style advertising concepts, not verified customer testimonials. Actual menu items, interiors and customer footage should be added only after confirmation from the business.

5. Social Media Captions

5.1 Instagram Caption

Your next favourite cafe moment starts here! ☕❤️

#CrumbzCafe #CafeExperience #Chandapura #BengaluruCafes #FoodAndFriends

5.3 YouTube Shorts Caption

POV: You found an idea for your next cafe outing! ☕✨

Good food + refreshing drinks + happy moments = a perfect cafe day!

Discover Crumbz Cafe, Chandapura.

#Shorts #CrumbzCafe #CafeVibes #BengaluruFoodies #CafeLife

5.4 Caption Strategy

- Instagram: Friendly, engaging and visually appealing.
- Facebook: Informative and welcoming.
- YouTube Shorts: Short, catchy and attention-grabbing.

The captions use local keywords, hashtags and clear calls to action to improve engagement and brand discovery.

6. AI Prompt Engineering Documentation

Prompt 1 – UGC Advertisement Hooks

AI Tool: ChatGPT

Prompt Used:

"Act as a professional UGC advertising copywriter. Generate 10 engaging and attention-grabbing UGC video hooks for Crumbz Cafe, a local cafe in Chandapura, Bengaluru. Promote food, beverages, cafe atmosphere and social gatherings. Use conversational language suitable for Instagram Reels, Facebook and YouTube Shorts."

Output Generated:

10 different hooks using curiosity, relatable situations, local discovery, food interests and lifestyle appeal.

Prompt 2 – UGC Video Advertisement Scripts

AI Tool: ChatGPT

Prompt Used:

"Create three short UGC-style video advertisement scripts for Crumbz Cafe in Chandapura, Bengaluru. Each script should be 20–25 seconds long and include a hook, problem, solution, scene descriptions, customer-style dialogues, on-screen text and a call to action. Cover cafe hangouts, relaxation and food experiences. Use natural and friendly language."

Output Generated:

Three short-form video advertisement scripts with scene-by-scene descriptions, dialogues and CTAs.

Prompt 3 – Social Media Captions

AI Tool: ChatGPT

Prompt Used:

"Generate engaging social media captions for Crumbz Cafe, a local cafe in Chandapura, Bengaluru. Create separate captions for Instagram, Facebook and YouTube Shorts. Include attractive opening lines, a welcoming description, location, calls to action and relevant hashtags. Keep the tone friendly and promotional."

Output Generated:

Three platform-specific captions with hashtags and promotional messages.

Prompt 4 – Marketing Strategy

AI Tool: ChatGPT

Prompt Used:

"Develop a simple UGC content marketing strategy for Crumbz Cafe. Identify the target audience, campaign objectives, content themes and suitable social media platforms. Focus on attracting local customers, increasing brand awareness and encouraging cafe visits."

Output Generated:

A content marketing strategy targeting students, young professionals, friends and food lovers through short-form social media advertisements.

6.1 Prompt Engineering Techniques Used

1. Role-based prompting – Assigning ChatGPT the role of a professional UGC copywriter.
2. Context-based prompting – Providing the business name, location and campaign details.
3. Instruction-based prompting – Clearly specifying the required content.
4. Platform-specific prompting – Adapting content for Instagram, Facebook and YouTube Shorts.
5. Structured prompting – Requesting outputs in hooks, scenes, dialogues and CTAs.

6.2 AI Output Refinement

The generated content was organized and refined to maintain consistency in brand messaging, audience targeting, readability and promotional appeal.

7. UGC Content Marketing Strategy

7.1 Campaign Objectives

1. Increase awareness of Crumbz Cafe among local audiences.
2. Attract college students and young professionals.
3. Promote food, beverages and cafe experiences.
4. Encourage social media engagement.
5. Increase interest in visiting the cafe.

7.2 Target Audience

- College students aged 18–25.
- Young professionals.
- Friends and social groups.
- Local food and cafe enthusiasts.

7.3 Content Strategy

Content Type	Purpose
Cafe experience videos	Showcase the cafe atmosphere
Food promotion videos	Attract food lovers
Friends and hangout videos	Encourage group visits
Relatable UGC videos	Build audience interest
Promotional captions	Encourage visits

7.4 Recommended Platforms

- Instagram Reels – Short-form promotional videos.
- Facebook – Local audience engagement.
- YouTube Shorts – Short and engaging video advertisements.

7.5 Expected Outcomes

- Improved local brand awareness.
- Increased social media engagement.
- Better audience interest in cafe offerings.
- More potential customer visits.

These are intended outcomes, not measured campaign results.

8. Conclusion

This project demonstrates how AI-powered prompt engineering can support UGC-style content marketing for a local business.

By using ChatGPT, different advertising hooks, short-form video scripts, social media captions and a structured marketing strategy were developed for Crumbz Cafe.

The project highlights how AI-generated marketing content can help businesses create engaging promotional ideas, connect with their target audiences and improve their online brand presence.

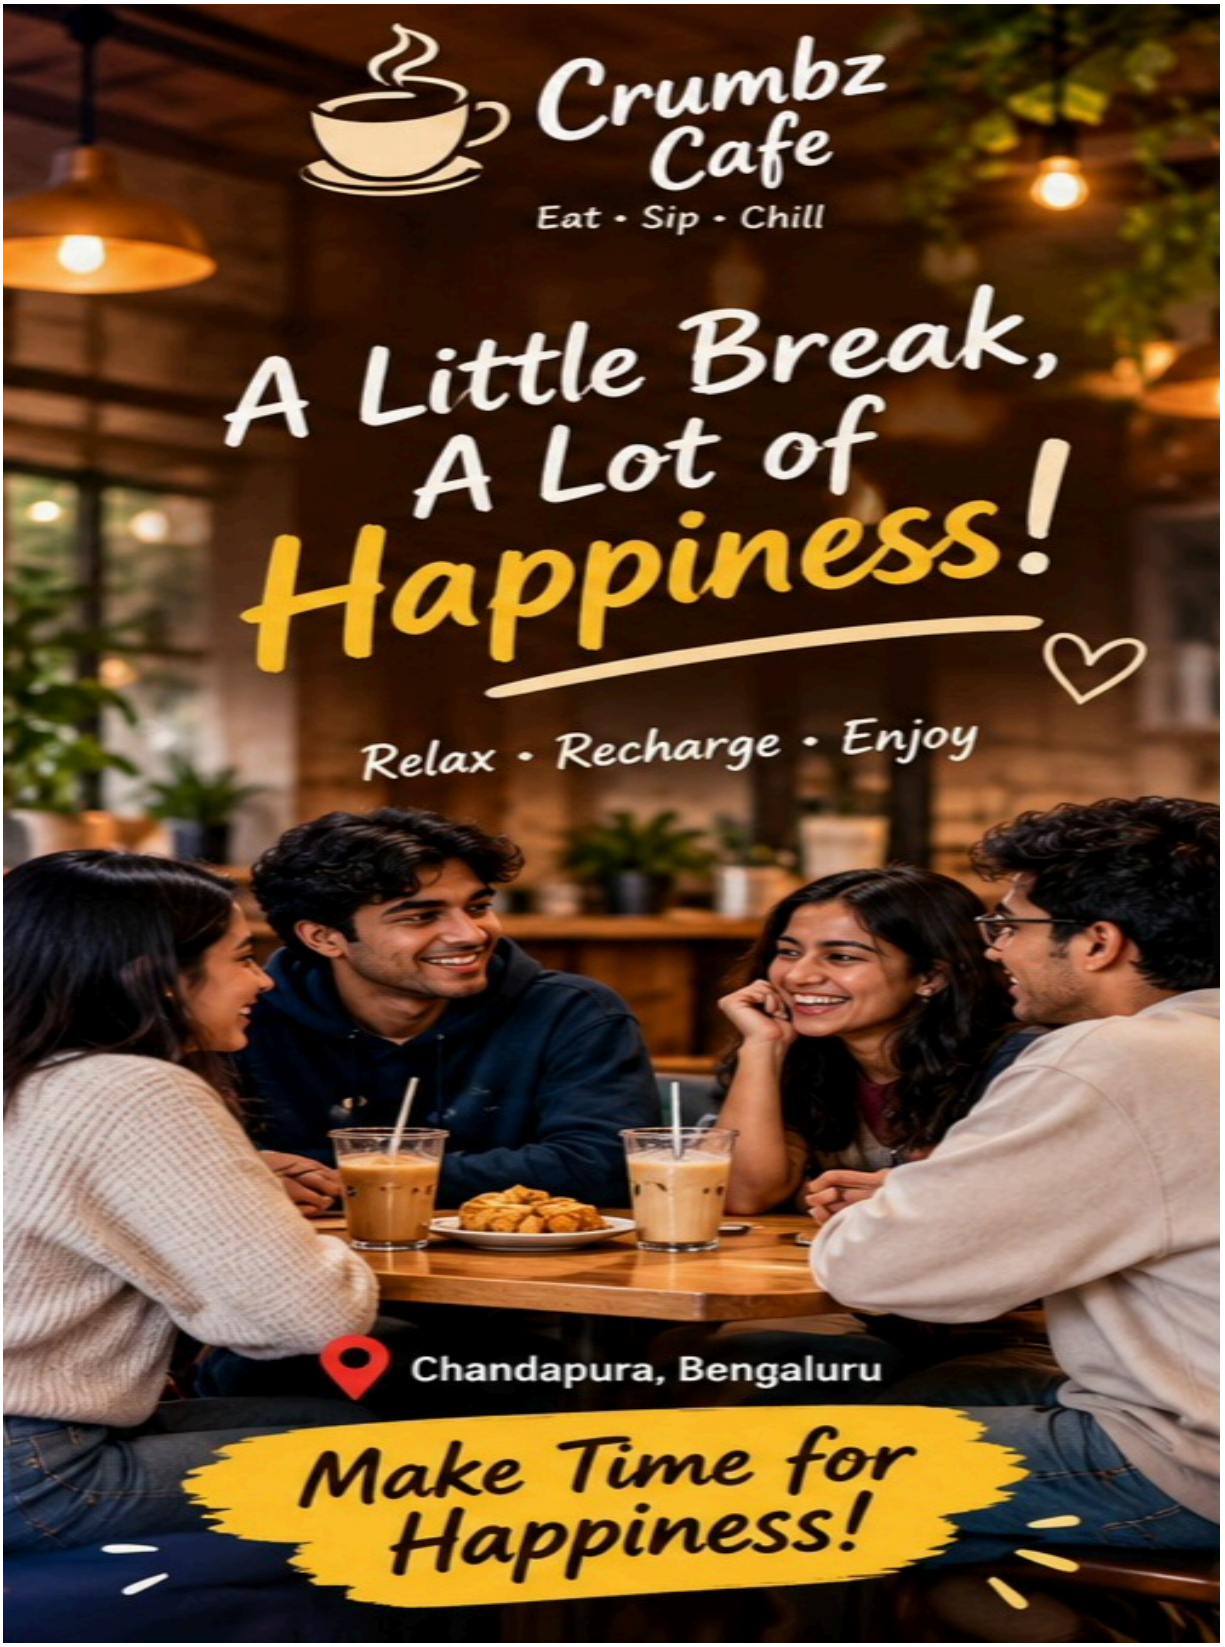

9. UGC Advertisement Creative Mockups

Creative 1 – Coffee Promotion

Purpose: To attract coffee and food lovers by highlighting an inviting cafe experience and encouraging them to visit Crumbz Cafe.

Creative 2 – Cafe Hangout Experience

Purpose: To promote Crumbz Cafe as a place for friends to relax, connect and enjoy quality time together.

Creative 3 – Foodie Promotion

Purpose: To attract food enthusiasts by showcasing an appealing cafe food and beverage experience.

10. Campaign Performance Measurement (KPIs)

10.1 Key Performance Indicators

The following metrics can be used to measure the performance of the UGC advertising campaign.

KPI	Purpose
Video Views	Measure advertisement reach
Likes	Understand audience interest
Comments	Measure audience interaction
Shares	Evaluate content sharing
Profile Visits	Track interest in the cafe
Customer Enquiries	Measure potential customer interest
Click-through Rate	Measure response to promotional links

10.2 Campaign Evaluation

The advertisements can be evaluated using Instagram Insights, Facebook Insights and YouTube Analytics.

Performance can be reviewed by comparing views, engagement, shares and customer enquiries across the three advertisements.

10.3 Expected Marketing Benefits

- Increased local brand awareness.
- Better social media visibility.
- Improved audience engagement.
- Greater interest in cafe offerings.
- Potential increase in customer visits.

10.4 Conclusion

Tracking campaign performance helps identify which advertisement attracts the most attention and encourages audience interaction. These insights can guide future content improvements.
